

UEI-250kW-631kWh

Highlights

High efficiency

Latest 720Wp Topcon Panel reach higher efficiency and 5 MPPTs to maximum the generation of PV arrays.

Flexibility

DC/DC MPPT device can be from 1*50kW - 6*50kW models, The Battery clusters can be from 157 kWh - 1892kWh, to match the best configuration ratio.

One-stop solution

UE will provide all components in one time, and completed guidance for installation/commissioning/operation&-maintenance.

Safe and intelligent

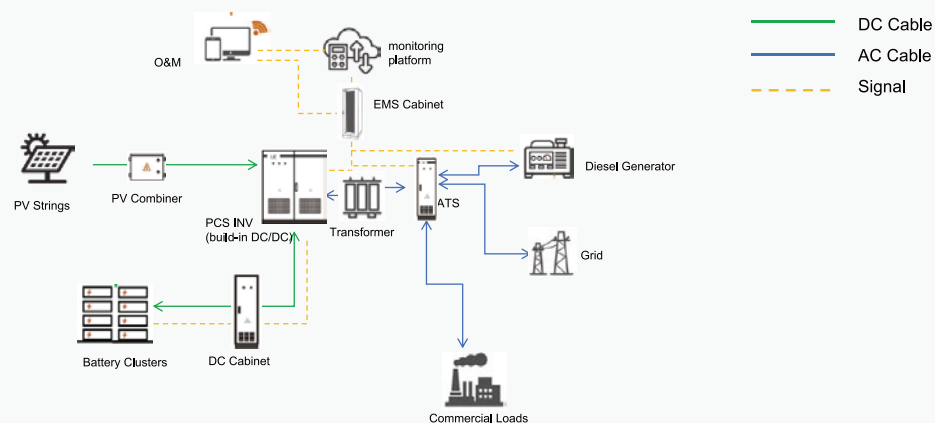

Build-in transformer PCS inverter, ATS cabinet + EMS cabinet, achieve high security and automatic control from hybrid to off-grid, automatic control the diesel generator.

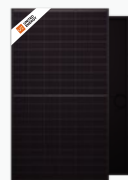

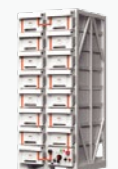

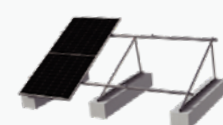

250kW Three Phase System Illustration

1000-1500kWh PV Generation per Day

Inverter can power up to **275kVA** when grid is off

631kWh back-up for night or grid off
